

8th SIP PLANNING AWARDS 2023

For the 8th SIP Planning Award, SIP continued with the past tradition of honouring both urban planners, consultancy firms in Singapore and beyond for their excellence in urban planning. Other than the planning professionals, SIP also acknowledged the efforts of more allied professionals, both locally and internationally, who are contributing to the creation of a more vibrant planning community in this new normal. Arising from the active collaboration between SIP and The Hong Kong Institute of Planners (HKIP), SIP launched a new award category which is jointly administered by SIP and HKIP. Through this award, SIP would like to play its part in encouraging more regional effort to strengthen and transform the planning profession. This award is for a plan that demonstrated responses to the planning and development concerns related to highly urbanised cities like Singapore and Hong Kong that share similar planning challenges. It specifically recognised innovative, sustainable, practical planning solutions pertaining to high density living environment, limited land supply and acute land-use competition, as well as climate change and rising sea level, etc.

SIP was very fortunate to have a very distinguished and diverse panel of 19 external judges from Singapore US, UK, Hong Kong and Japan who joined us in the judging process. They come from both private and public sectors, covering government agencies, academia and practice.

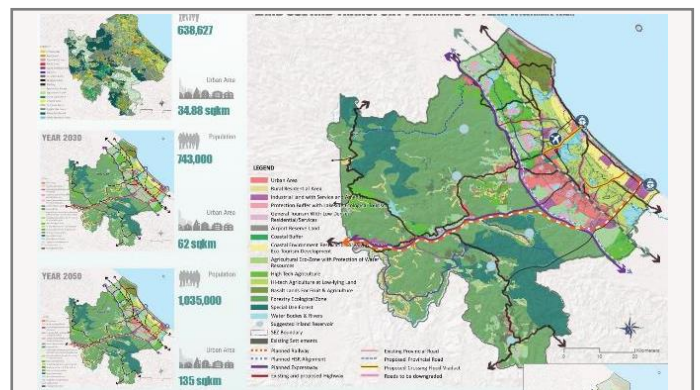

The judges included Mr. Paul Farmer, Mr. Khoo Teng Chye, Mr. Seow Kah Ping, Mr. Fong Chun Wah, Mr. Willfred Loo, Ms. Rebecca Wong, Ms. Fun Siew Leng, Mr. Tim Stoner, Mr. Ho Weng Hin, Mr. Michael Koh, Dr. Jonas Joerin, Mr. Larry Ng Lye Hock, Mr. Ng Siau Yong, Ms. Motoko Kaneko, Dr. Sri Lalitha, Mr. Lim Tit Meng, Prof John Achari, Associate Prof. Raymond Ong and Mr Thomas Lee. The judges for outstanding student projects and Young Planner of the Year were Mr. Djoko, Ms. Nina Yang, Ms. Karen Tham, Mr. Bai Yan, Mr. Li Yu Zhou and Ms. Constance Leung.

SIP received a total of 82 submissions from Singapore, China, Indonesia, Malaysia, and Australia in eleven project categories and 12 nominations for the people category. The Joint Award by SIP and HKIP attracted a total of 9 submissions, with 6 from Hong Kong. The winning entries were selected based on their planning approach, methodology, originality, innovation, core values, implementability, and presentation clarity. Additionally, SIP recognised young planners (below 40 years) who have made significant contributions to the advancement of the planning profession in Singapore.
